# Sagemax experience

Framework fabrication

Fabrication of the zirconia framework with special cut-back design for upper and lower jaw made of NexxZr T Multi.

## Micro-layering

Micro-layering and staining of the restorations with IPS e.max Ceram and IPS Ivocolor (Co. Ivolar).

## Final result

---

The end result is excellent. The restorations blend perfectly into the oral cavity, taking into account all esthetic and functional aspects, and make the patient's smile shine.
