---

# Sagemax experience

Initial situation

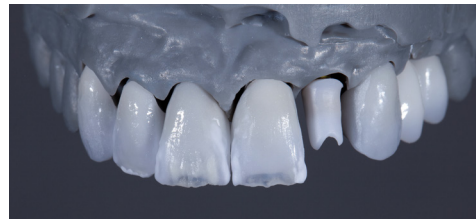

---

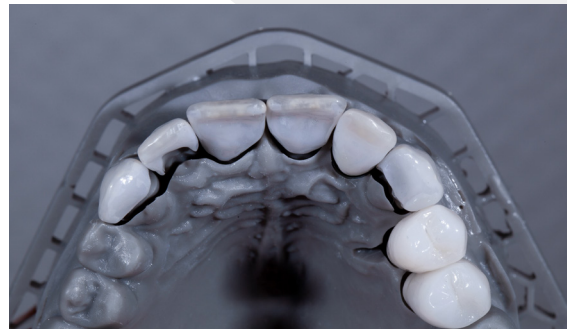

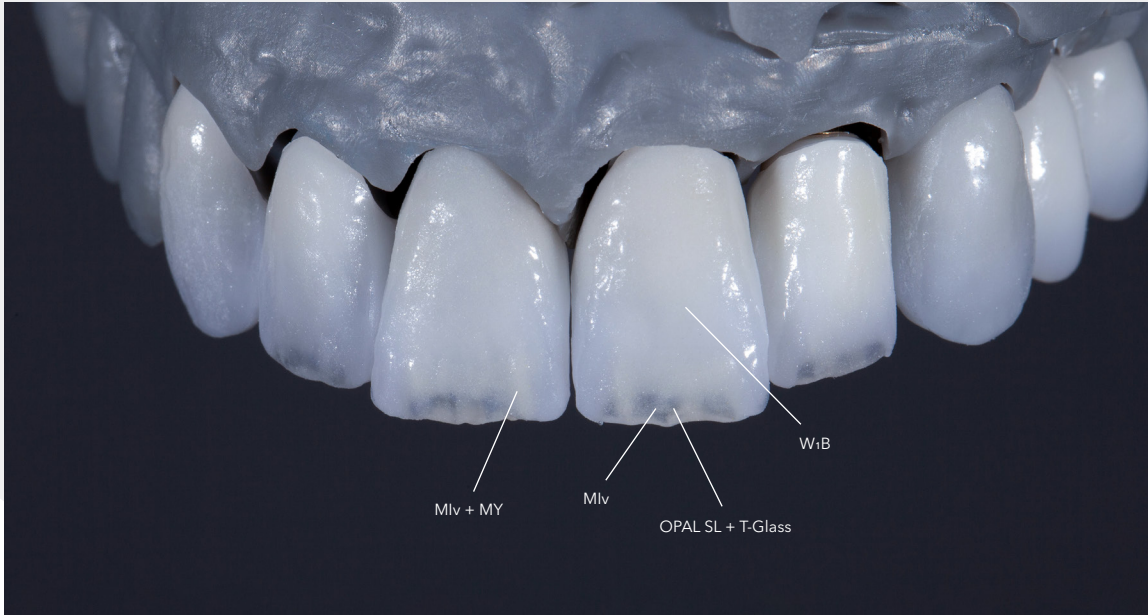

Patient with discolored and deformed teeth and old, poor-looking restorations.

Fabrication of the restorations

---

Fabrication of the zirconia framework with special cut-back design made of NexxZr T Multi.

Micro-layering and staining of the restorations with Vintage ZR and Vintage Art (Co. Shofu).

## Final result

---

Before.

After.

The restoration blends in harmoniously with the surrounding oral situation.
