NexxZr T Multi monolithic
by Dr. Mina Magdy & Dr. Ahmed Aboul-Fettouh

Sagemax experience

Initial situation

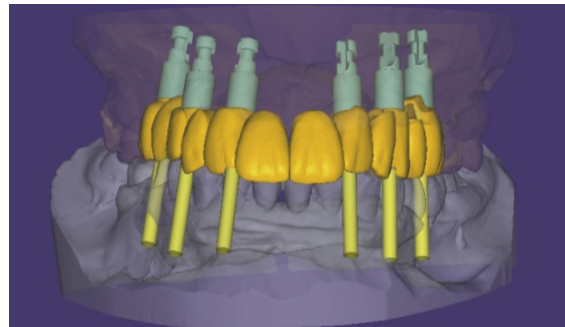

Missing teeth between 16 and 26.

Placement of six implants.

Implants with healing abutments.

Monolithic design of the multi-unit bridge.

Fabrication of the restoration

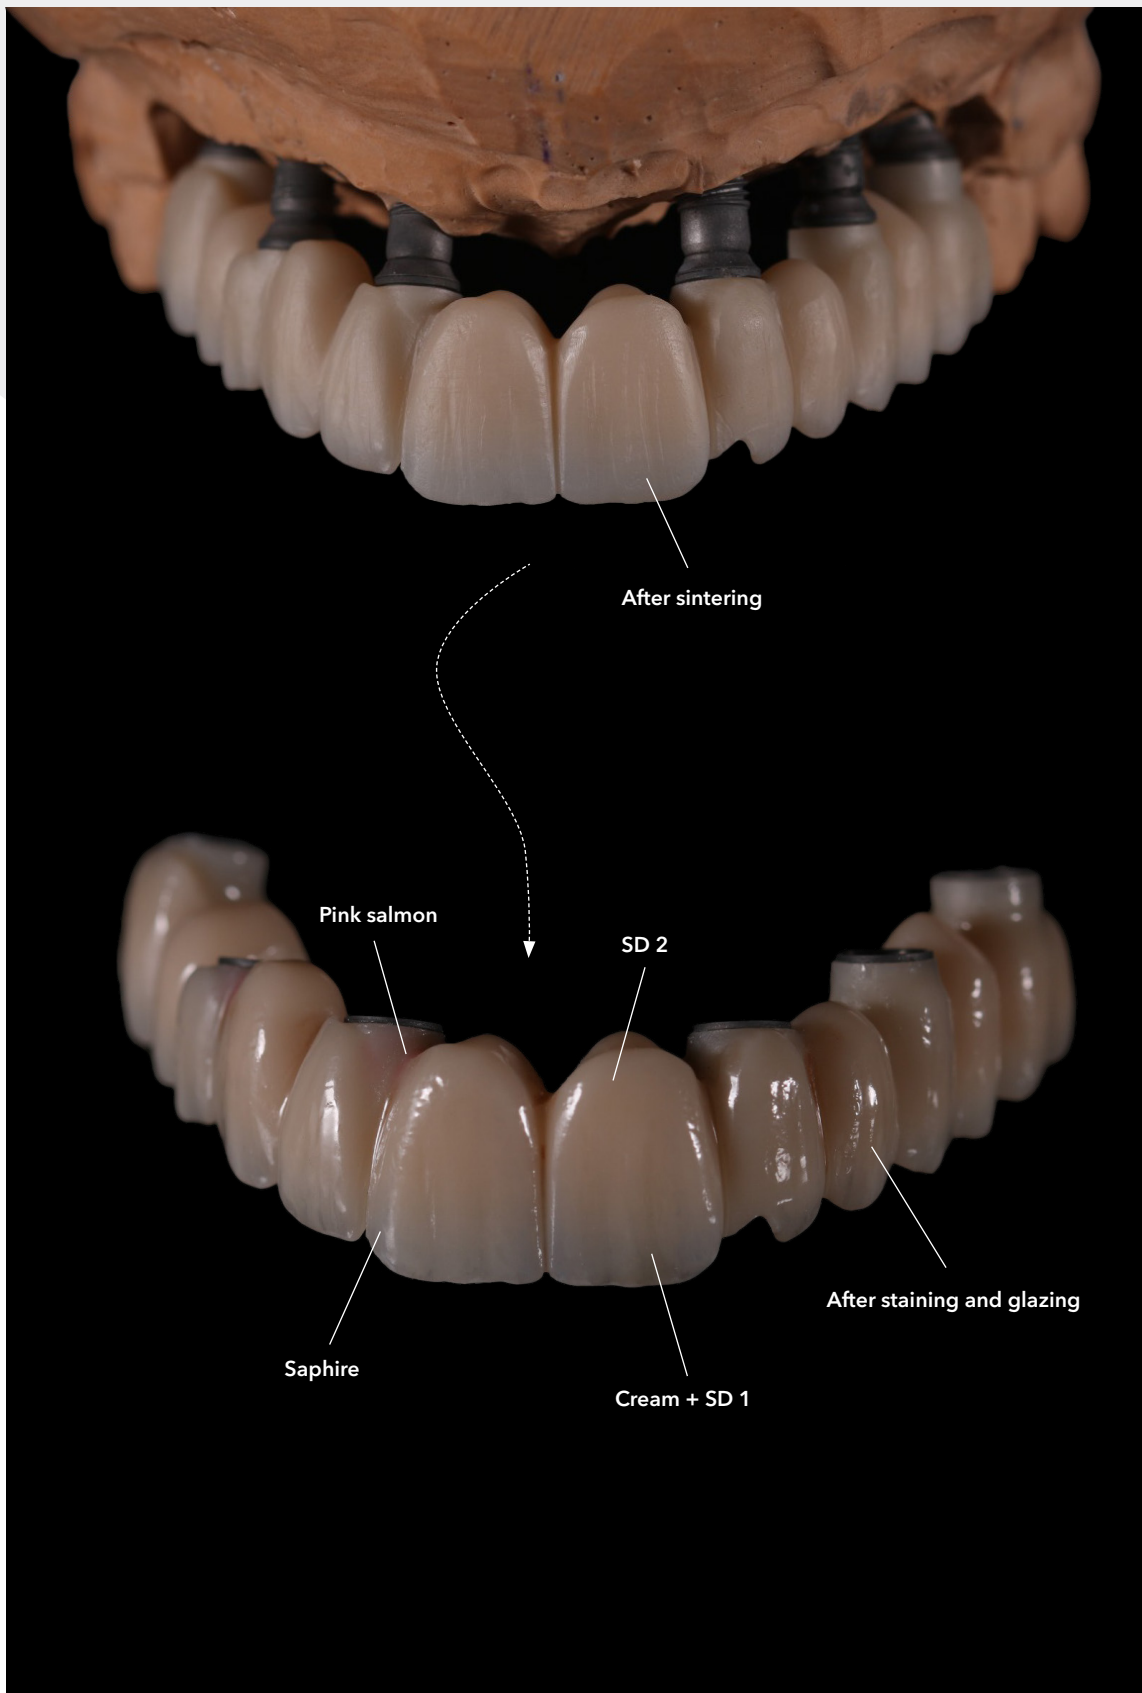

Bridge milled from NexxZr T Multi A3.

Minimal adjustment of shape and surface.

Completion of the restoration

Staining and glazing with IPS Ivocolor (Co. Ivoclar) and Cerabien ZR (Co. Kuraray Noritake).

Final result

Before.

After.

The restoration blends in harmoniously with the surrounding oral situation.
